

TRAFFIC INFORMATION

As complicated as parking and carpool lines may be, we can make this work. This year in regard to carpools:

SOUTH LOT - ALL carpooling takes place in the south lot for BOTH drop off AND pick up.

To avoid traffic buildup on Happ Road during pick up, we are asking drivers to line up in a double row around the circumference of the South Lot. Upon approaching the end of the lot, cars will merge into ONE lane so they can approach the curb single file. This simply requires a “lets take turns” attitude to merge. The lot will empty within 15 minutes of dismissal time.

NORTH LOT- Park your cars and come into the temple with your child (or come in to pick your child up). **DO NOT PARK** along the curb and ask your child to meet you there.

SOUTH LOT – Carpool
NORTH LOT – park and come in

Please note that if you park in the south lot and come in, you may be blocked from leaving as carpools form their lines.

We have security folks and police directing traffic, but we cannot do this without your cooperation.

Thank you in advance for your help.
