CENTER FOR LEARNING SNAPSHOTS

Second Graders had Mitzvah Madness

Each week they decided on a new *mitzvah* (good deed) that they would perform outside of temple. These included helping out at home, giving compliments, donating a book, and writing a thank you note to soldiers. Their compassion was contagious!

The entire school participated in a Gratitude Project

Kindergartners enjoy hands on projects, often tasty ones!

Fourth Graders Learn Gratitude

The students spent time defining what it means to be truly grateful and what they are grateful for in their lives. The answers were extremely thoughtful and led to the creation of a Gratitude Garden which now lives in the courtyard displaying individual rocks of gratitude from each student.
